# TENACITY

## Travel Intelligence Against Crime And Terrorism

### TRAVEL INTELLIGENCE

A Governance Framework that will incorporate a holistic approach to crime prevention, ensuring that technology will identify the modus operandi of criminal and terrorism organizations.

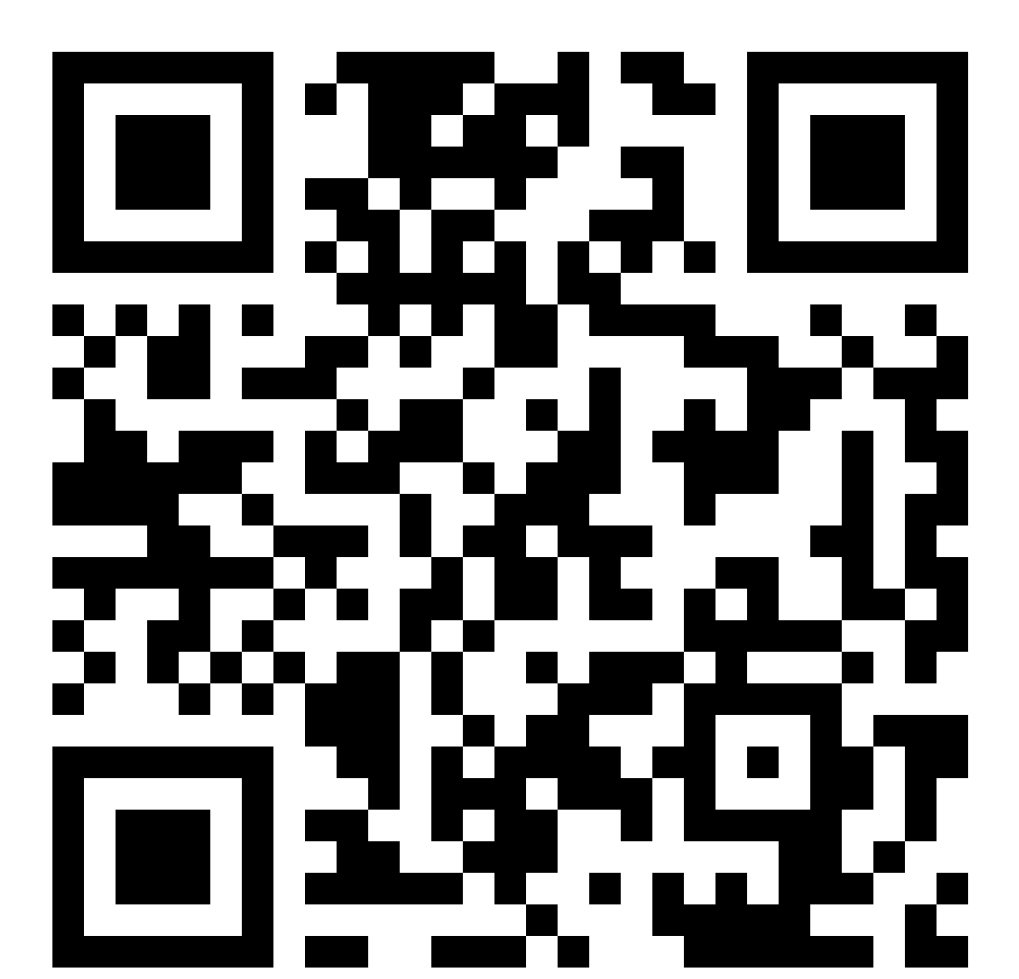

### MODERN TOOLS

An interoperable open architecture for the integration and analysis of multiple data from a variety of sources, by exploiting game changing digital technologies

### LIVING LABS

Training tools through hackathons and workshops for all relevant stakeholders who would benefit from the implementation of modern concepts and the use of digital technologies.
