

TENACITY

Welcome to the TENACITY 2nd Living Lab!

28 FEBRUARY 2025

NTUA, ATHENS

TENACITY has received funding from the European Union's Horizon Europe research and innovation programme under grant agreement No 101074048

Building on the success of the 1st TENACITY Living Lab

- Hosted at KEMEA, Athens, with 63 participants from PIUs & security authorities.
- Launch of the TENACITY digital platform with advanced intelligence tools.
- Hands-on training and tool validation for real-world application.
- Participation from 9 different Passenger Information Units (PIUs) across Europe.
- Interactive sessions following ISO 29993:2017 and CEPOL standards
- Stakeholder engagement & feedback, refining security solutions.

ABOUT 2ND LIVING LAB

Building on the success of the 1st TENACITY Living Lab, this session will further test, validate, and enhance innovative digital solutions for travel intelligence governance. By actively participating in hands-on training, scenario-based exercises, and interactive discussions, stakeholders will play a key role in strengthening crime prevention efforts and fostering international collaboration.

Presentation of Tools

Discover the latest TENACITY digital tools designed to enhance travel intelligence governance. Participants will gain hands-on experience with innovative solutions aimed at crime prevention, intelligence analysis, and decision-making support.

Execution of Scenarios

Engage in real-world scenario simulations, where Passenger Information Units (PIUs), Airline Security Officers, and Law Enforcement Agencies (LEAs) will put the tools to the test. These exercises will help validate functionality, usability, and operational efficiency.

Roundtable Discussions

A collaborative space for stakeholder engagement and feedback. Participants will share insights, discuss best practices, and help shape the future development of the TENACITY platform based on real-world needs.

TENACITY Newsletter

Stay tuned for news, updates, the latest developments, and key outcomes from the TENACITY Living Labs. Get insights on innovations in travel intelligence, upcoming events, and project milestones.
