TENACITy

Travel Intelligence Against Crime And Terrorism

TENACITy Final Pilot and Conference

"Strengthening Security & Resilience"

Welcome to the TENACITy Final Pilot and Conference "Strengthening Security & Resilience". Since its launch, TENACITy has worked to transform how Europe manages travel intelligence and border security by developing innovative tools, promoting legal and ethical data use and fostering collaboration between stakeholders. We are proud to showcase the results of this collective effort. This event marks a significant milestone, bringing together project partners, law enforcement professionals, policymakers, researchers and members of the broader community. It offers a unique opportunity to explore the outcomes of the project through live demonstrations, expert insights and interactive sessions. Together, we reflect on the progress made, share key lessons learned and look ahead to a future where travel intelligence is smarter, more secure and more respectful of European values. Thank you for joining us on this important day we're excited to share this journey with you.

Security

Enhancing the protection of European borders through data-driven strategies and advanced travel intelligence solutions that support law enforcement.

Collaboration

Fostering strong partnerships between policymakers, security agencies, researchers and the public to ensure trusted, effective implementation.

Intelligence

Harnessing real-time travel data, AI, and analytics to deliver actionable insights for crime prevention, risk assessment and operational coordination.

Governance

Establishing a robust, ethical, and legal framework that aligns technology use with privacy, human rights and European law.

TENACITy

Travel Intelligence Against Crime And Terrorism

TENACITy Final Pilot and Conference

"Strengthening Security & Resilience"

Live Tool Demonstrations

Experience hands-on showcases of the digital tools developed through TENACITy's cutting-edge research.

Expert Talks

Gain valuable insights from thought leaders and innovators shaping the future of travel intelligence and security.

Final Pilot Showcase

See real-world applications of the TENACITy platform through a live demonstration of the final pilot.

Stakeholder Engagement

Engage with policymakers, law enforcement, researchers and civil society in interactive discussions.

Networking Opportunities

Connect with experts, share knowledge, and build partnerships for future collaboration.
