

TENACITY

Travel Intelligence Against Crime and Terrorism

Legal & Ethical Framework

- Integrated AI Act compliance into development
- Categorized TENACITY tools as “High-Risk AI Systems”
- Applied ALTAI principles & conducted Human Rights Impact Assessment
- Legal recommendations to improve PNR framework to be published

Risk Management Framework

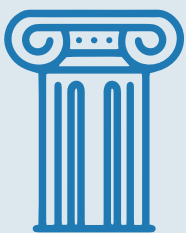

- In-depth analysis of transportation routes and modi operandi
- Surveyed PIUs & LEAs on identifying offenders & victims
- Developed a risk-scoring methodology using behavioural indicators
- Supports early detection of high-risk passengers

Piloting & Evaluation

- Designed evaluation methodology & KPI framework
- Organized 2 full-scale pilot demonstrations across Europe
- Provided tailored training for LEAs and PIUs
- Collected feedback to refine tools and integration

These pillars ensured that TENACITY's innovations are secure, validated and aligned with EU values.

TENACITY has received funding from the European Union's Horizon Europe research and innovation programme under grant agreement No 101074048
