TENACITy

TRAVEL INTELLIGENCE AGAINST CRIME AND TERRORISM

ABOUT TENACITY

TENACITy develops a digital platform supporting Passenger Information Units (PIUs) and Law Enforcement Agencies (LEAs) through enhanced data analytics, interoperability and real-time risk assessment for cross-border crime prevention and travel intelligence.

The platform enables data-driven decisions, integrates diverse travel-related information sources and fosters cooperation among security stakeholders.

Below are key workshops and pilot events that demonstrate TENACITy's real-world validation and impact.

1ST TRAINING & LIVING LAB WORKSHOP

- Focused on hands-on training and real-world scenarios for PIUs and LEAs
- Enabled participants to test and interact with TENACITy tools
- Facilitated feedback and discussion on operational integration and improvements
- Marked the first user-driven validation of project technologies

1ST PILOT DEMONSTRATION

- Real-world scenario testing of TENACITy tools
- Hands-on sessions with technical partners
- Technical validation and roundtable feedback from end users
- Assessment via interactive quiz

END USER WORKSHOP

- Platform integration strategy discussions
- Use case refinement aligned with PIU operations
- Preparations for next Living Lab
- Collaborative roadmap for the final release

2ND LIVING LAB WORKSHOP

- Focus: PIU & airline security tool testing
- Scenario-based exercises, chat-assisted tool validation
- Cross-functional collaboration between LEAs and airline security
- Final feedback on usability, integration, and roadmap

FINAL PILOT & CONFERENCE — "STRENGTHENING SECURITY & RESILIENCE"

- Showcased final versions of TENACITy tools through real-world pilot scenarios
- Gathered end-user feedback and insights from LEAs, PIUs, and security stakeholders
- Highlighted key lessons learned and policy recommendations for future adoption
- Official closing event and project results dissemination

PROJECT FACTS

- Project Grant Agreement No. 101074048
- TENACITy - Travel intelligENce Against CrIme and Terrorism
- Duration: 3 Years (start: Sep 2022 end: Aug 2025)
